What is IntoTech?

IntoTech is a (free) get-together kind of technology conference, with a focus on IT newbies and people who have always been curious about technology but never found a way to get started.

We are offering handpicked talks and workshops, that are meant to inspire, motivate and engage the participants and get them into technology. There will be open spaces for tech communities to present themselves and their projects and get in touch with the participants. We want to show people that tech is not that hard and everyone can utilize it for their own projects, that there is a big community out there that wants to help and most of all, that Tech is fun.

Why Partnerships?

- Be part of a unique project that tries to get more people empowered, interested and involved in the field of technology

- Inspire and reach new talent from different backgrounds

- Gain visibility with an audience that has very little pre-knowledge and is open to learning

- We are an informal team of mainly students and we are neither getting paid for organizing nor are we making any money with this conference. Your support can help us make this event happen and make it awesome.

Packages

	Silver 100€	Gold 500€	Platinum 1000€
Logo & Link on Website	●	●	●
Materials in Goodie Bags	○	●	●
Poster/Rollup at Event	○	●	●
